

Training resources for Ebola

Introduction to Ebola

Welcome to the introductory-level online course on Ebola virus disease (EVD), a severe, often fatal, haemorrhagic fever.

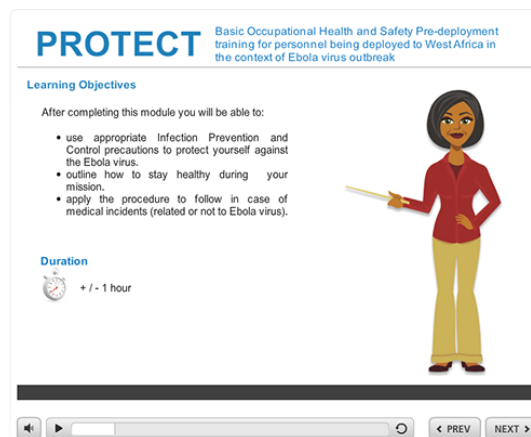

This short video lecture is available in French and English. It can be downloaded and used off-line in your mobile phone or tablet. A version in Lingala will be available in the next few days.

Login instructions

- Go to the platform www.OpenWHO.org
- Create your login in the upper right hand corner
- Go to the “Courses” tab on the upper frame
- Select the course “Pandemic and epidemic-prone diseases”
- Click “Enrol me for this course”
- Choose the Ebola introduction from the left-hand navigation panel
- Click the TV screen icon to access the video lecture and accompanying presentation
- All resources can be downloaded as files from the tabs at the bottom of the page
- You can go through the module content by clicking on the icons above the content

Ebola e-PROTECT: Occupational Health and Safety Training

All personnel responding to Ebola outbreaks are expected to follow this short health and safety course. It will help you to protect yourself and your team members, and prevent further spread of this disease.

Login instructions

If this is your first time in accessing the e-learning platform, please create your ADS account. When your account has been successfully created, you can access the content in English and French.

<https://extranet.who.int/ads/adswebinterface/create.aspx>

When your own account is created, you can access the content at the one of following addresses:

ENGLISH: <https://extranet.who.int/ihr/training/course/view.php?id=95>

FRENCH: <https://extranet.who.int/ihr/training/course/view.php?id=102>

If you are not logged-in yet, you will need to click on “continue” button and use your ADS account. Please provide the following enrollment key: **who-staff&consultants2015**

If you need any help, please contact Heini Utunen at outbreak.training@who.int
