modern methods	No Data		Injectable			methods	Condonis	Ť	
Secondary/tertiary SDPs with at least 5 modern methods	NO Data		Pill				Condoms.	Ť	

Definition of Indicators

- 1. mCPR: % of women of reproductive age who are using (or whose partner is using) a modern contraceptive method at a particular point in
- 2. unmet need: % of fecund women of reproductive age who want no more children or to postpone having the next child, but are not using a contraceptive method, plus women who are currently using a traditional method of family planning.

 3. demand satisfied: percentage of women (or their partners) who desire either to have no additional children or to postpone the next child and
- who are currently using a modern contraceptive method.

 4. Unintended pregnancies: Nb of pregnancies that occurred at a time when women (and their partners) either did not want additional children
- or wanted to delay the next birth.
- 5. unsafe abortion: Nb of unsafe abortions that did not occur during a specified reference period as a result of the protection provided by modern contraceptive use during the reference period.
- 6.Facilities stocked out: % of facilities stocked out of each type of contraceptive offered, on the day of assessment.

 7. Method availability: % of primary (resp. seconday/tertiary) service delivery points with at least 3 (resp. 5) modern methods of contraception
- 8. Total fertility rate: Average nb of children a hypothetical cohort of women would have at the end of their reproductive period if they were subject during their whole lives to the fertility rates of a given period and if they were not subject to mortality.
- 9. Adolescent birth rate (ABR): Nb of births to adolescent females, aged 15-19 occurring during a given reference period per 1,000 adolescent females.
- Maternal mortality ratio (MMR): Annual nb of female deaths from any cause related to or aggravated by pregnancy or its management per 100 000 live births.
- 11. Infant mortality rate (IMR): probability of dying between birth and age 1 per 1000 live births.
