</table>

- Of the total confirmed cases, 73,393 (60%) are in the 20-49 years age-brackets which constitutes the majority of the recorded cases.
- A total of 19,342 (16%) of the confirmed cases are among the 5-19 years category.
- A total of 14,624 (12%) of the confirmed cases are among the 50-59 years group.
- The under 5 years age group make up 2,678 (2%) of the total cases whereas, 12,060 (10%) are above 60 years of age.

Figure 2: Age and Sex distribution of COVID-19 confirmed cases 11 August 2021

- The laboratory testing capacity has been enhanced; with a total of fourteen (14) laboratories carrying out the testing of samples: NIP, Path-Care, UNAM Molecular, Central Veterinary Laboratory, Namib Poultry, NAMUL, NamPath, Namibia Central Pathology, DiagnoLab, High Care, Alpha Medical Laboratory, Des-Jo Medical Test Centre, ProQuest Diagnostic Laboratory, Maxi and Medlink Laboratory Services.
- To date, 633,588 tests (including 13,978 re-tests) have been conducted by authorized laboratories.
- Since the beginning of the outbreak, 133,621 contacts of confirmed cases have been identified, 214 new contacts were identified within the last 24 hours from 12 regions.
- Cumulatively, 130,331 contacts have completed their monitoring period, while 147 contacts are lost to follow-up and a total of 23,630 (19%) contacts of confirmed cases have tested positive.
- Today, 1,151 (64%) out of 1,807 active contacts were monitored.
PUBLIC HEALTH ACTION(S)

➢ Public Health measures continues to be enforced as the situation is closely monitored.
➢ The COVID-19 vaccination programme is ongoing throughout the country
➢ The government and development partners continue to prioritize the continuation of essential health services.

CHALLENGES

➢ Poor adherence to COVID-19 Infection Prevention and Control (IPC) measures by the general public.

RECOMMENDATIONS

➢ Continue to give awareness on the importance of adhering to COVID-19 IPC measures; with the involvement of the Security Cluster.

APPROVED
